Education

University of Michigan, Ann Arbor B.S. Anthropology, Biochemistry Minor	August 2012
Boston University School of Medicine M.S. Medical Sciences	May 2014
Cooper Medical School of Rowan University M.D. Candidate	May 2019

Experience

Outreach Volunteer, 2015-Present

Street Medicine at CMSRU, Camden, New Jersey

Provide basic health services and other necessities to Camden's homeless population. Coordinate medical care and provide resources to clients, and help them navigate the challenges they face in their daily lives.

Emergency Room HIV Testing Volunteer, 2015-Present

Our Lady of Lourdes Hospital, Camden, New Jersey

Carry out risk factor interviews and HIV tests with ER patients at Our Lady of Lourdes Hospital. Determine which patients are at highest risk for HIV infection, and encourage them to be tested on-site. Work closely with patients to coordinate their care and ensure they have access to the appropriate resources.

Full Time Volunteer Research Assistant, 2013-2014

Coetzee Lab at NYU Langone Medical Center, New York City, New York

Learned basic lab skills as well as some advanced experimental techniques. Carried out an electrophysiological functional analysis on two mutations in the cardiac sodium channel Nav 1.5, found in a five-week-old girl who died in her sleep. Submitted masters thesis on my work and am currently composing a manuscript on my findings that will be submitted for publication upon its completion.

Volunteer, 2013

Massachusetts Ear and Eye Infirmary, Boston, Massachusetts

Completed data entry projects for the employee health clinic, through which I became proficient in Microsoft Excel. Assisted employee patients upon their arrival to the clinic.

Volunteer, April 2011

One D Coalition, Detroit, MI

Worked with the One D Coalition surveying food access in Detroit. Traveled to food providers in the city and interviewed shoppers to collect data and opinions on the availability of fresh, nutritious food in Detroit.

Student Observer, Summer 2010

Cermak Health Services, Chicago, Illinois

Shadowed physicians in their daily rounds through Cermak Health Services of the Cook County Jail. Observed interactions with patients and learned from the unique issues of correctional medicine. Became knowledgeable of several common conditions and how they are treated. Gained insight into the diverse array of professional and people skills an effective physician must possess.
